Re: Update on Village Hall

Two aspects are ongoing with Village Hall progress right now, specifically, architectural work and site engineering. We are getting close to the end of the planning process for both pieces.

## Architecture

- Plans should be completed by mid-June for submission to Union County.
- Samples of potential finishes will be delivered to Village Hall in a week or two for Council review. Staff will inform Council when they are available.

## Site Engineering

- Staff has advised our engineer to move forward with permeable pavers in the driveway and the Farmer's Market areas on the site plan.
- Plans are almost completed for permitting through the various agencies (NCDOT, NCDEQ/NCDENR, UCPW).

Below are two renderings, with different color schemes, for the new Village Hall.
